```kotlin
fun <T> Suite.checkElementsIn(collection: Collection<T>, body: T.() -> Unit) {
    collection.forEach {
        this.delegate.test("assert element $it", Skip.No) {
            body.invoke(it)
        }
    }
}
```

```kotlin
val list: List<String> = listOf("asd", "dsa", "qwe", "Rty")

checkElementsIn(list) {
    assertTrue {
        this.isLowerCase()
    }
}
```
