MOCKING BEST PRACTICES

- Don't mock final classes (even if you have fancy plugin for that)

- Reuse mocks behavior carefully

- Extract common mocks to separate classes

MOCKING BEST PRACTICES

- Don't mock final classes (even if you have fancy plugin for that)

FACTORY METHODS + DEFAULT ARGUMENTS

```kotlin
class SignUpPresenter(
        val view: SignUpView,
        val router: Router,
        val formValidator: FormValidator,
        val userProvider: UserProvider,
        val signUpUseCase: SignUpUseCase
){
    /**/
}
```
